3 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted in the preparation of these consolidated condensed interim financial statements (un-audited) are consistent with those applied in the preparation of the consolidated annual financial statements (audited) of the Group for the year ended December 31, 2023 except for the adoption of IFRS 9 Financial Instruments w.e.f January 1, 2024.

3.1 Standards, interpretations and amendments to published approved accounting standards that are effective in the current period

During the period, there are certain new and amended standards, interpretations and improvements to accounting standards that became effective. However, these are considered either not to be relevant or not to have any material effect on the financial statements of the Group and, therefore, are not disclosed

3.2 Standards, Interpretations and amendments to approved accounting standards that are not yet effective

There are certain new standards and interpretations of and amendments to existing accounting and reporting standards that are not effective in the current period. The Group expects that adoption of the same will not affect its financial statements in the period of initial application.

3.3 Changes in accounting policies and transition disclosures

3.3.1 Impact of IFRS 9 - Financial Instruments

As permitted by the transitional provisions of IFRS9, the Group has opted for modified retrospective approach and has not restated comparative figures. Any adjustments to the carrying amounts of financial assets and liabilities at the date of transition were recognised in the opening retained earnings at the beginning of the current year without restating the comparative figures.

The adoption of IFRS9 has resulted in changes in the accounting policies for recognition, classification and measurement of financial assets and financial liabilities and impairment of financial assets. IFRS 9 also significantly amends other standards dealing with financial instruments such as IFRS 7 'Financial Instruments: Disclosures'.

3.3.2 Reconciliation of statement of financial position balances from existing local regulations to IFRS 9

The following table reconciles the carrying amounts of financial assets, from their previous measurement category in accordance with existing local regulations to their new measurement categories upon transition to IFRS 9 on January 01, 2024;

	Classification under IFRS 9					IFRS 9 carrying amount as at Jan 1, 2024

3.3.3 The following explains how applying the new classification requirements of IFRS 9 led to changes in classification of certain financial assets held by the Group as shown in the table above:

(A) Designation of equity instruments at FVOCI

The Group has elected to irrevocably designate strategic investments of Rs. 10.523 million in unquoted securities as permitted under IFRS 9. These securities were previously classified as available for sale. The changes in fair value of such securities will no longer be reclassified to profit or loss when they are disposed of.

The Group has elected to irrevocably designate Rs. 3,531.810 million in listed securities as permitted under IFRS 9. These securities were previously classified as available for sale. The changes in fair value of such securities will no longer be reclassified to profit or loss when they are disposed of.

(B) Reclassification from retired categories with no change in measurement

In addition to the above, the debt instruments previously classified as available for sale and now classified as measured at FVOCI under IFRS 9, as their previous categories under existing local regulations were 'retired', with no changes to their measurement basis.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The basis for accounting estimates adopted in the preparation of these consolidated condensed interim financial statements are the same as that applied in the preparation of the audited annual consolidated financial statements for the year ended December 31, 2023.

5 FINANCIAL RISK MANAGEMENT

The financial risk management objectives and policies are consistent with those disclosed in the consolidated financial statements of the Group for the year ended December 31, 2023.

However, the Group has yet not availed the benefit of allowed value of mortgaged lands and buildings while computing the provision against non-performing loans.

10.3.3 In addition to the time based criteria, the Group has further classified loans and advances amounting to Rs. 2,031.146 million (December 31, 2023: Rs. 4,603.142 million) and further de-graded the category of classified loans and advances amounting to Rs. 5,160.135 million (December 31, 2023: Rs. 5,366.175 million) on the basis of credit worthiness of the borrowers in accordance with the subjective criteria of the Prudential Regulations for Agriculture Financing.

36 FAIR VALUE MEASUREMENT

The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. Quoted securities classified as held to maturity are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available audited financial statements.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since these are either short-term in nature or, in the case of customer loans and deposits, are frequently repriced.

36.1 Fair value of financial assets

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

36.2 Valuation technique used & key inputs

Revaluation rates for Treasury bills and Pakistan Investment Bonds are contributed by money market brokers on daily basis while for listed securities; daily prices announcement by Pakistan Stock Exchange.

Investment in subsidiary and other unlisted securities have not been carried out at fair value in accordance with the SBP guidelines.

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:
