Our forefathers rendered sacrifices to achieve this goal. Sacrifices rendered by muslims can't be forgotten. Live nations celebrate their independence day enthusiastically. On this day our heart full of joy and feel joyous because freedom is a blessing. A moment of freedom is better than hundred years of slavery. Freedom is the mirror of God's blessing. We have to express our commitment that we will contribute greatly for the national progress and by practicing the Quaid's principal "Work, Work and

More Work) can defeat the anti-state elements in a united and discipline manner. The present government has framed many projects for the development and prosperity of the country and welfare of the Government officials. Agriculture plays vital role in the development of a county. By the grace of God our Bank is the backbone in the agriculture sector in the county. We should work hard by day and night to achieve this goal. As a Pakistani nation, it is our obligation to learn from

past mistakes for brighter future. We have to be united and patriotic. At the end of the ceremony sweets were distributed among the participants and prayers were offered for the integrity of the mother-land.
